

ABOUT US

Experience the thrill of the catch! Fish with our guides and catch **barramundi** on one of Australia's most unique river systems, the Ord. Keen sportfishers will hone their skills against the mighty barramundi. Some will record their official **over-the-metre** barra. While novice anglers will enjoy just getting hooked on barra! Other species encountered include various catfish, western sooty grunter, silver jewfish, archerfish, small tarpon and maybe a mangrove jack or stingray. **Escape** for a fishing holiday allowing time to explore the shallow waters of this historic and mighty river. **Discover** where wild river meets outback country. Spot Mr Croc and friends coexisting in their natural habitat. All tours and safaris are fully guided and all-inclusive. You need to bring a spirit for **adventure** - shady hat, sunscreen, personal items, camera - to catch the **action!** - and wear protective outdoor clothing & footwear.
